

HJJ Series Clamps

ITEM NO.:HJJ-01

Application: Tensile force,destructive power, Insertion and Extraction Force test of the material such as rubber, all kinds of cable, paper, various electrical components,plastic film,etc.

Maximun Load: 500N

ITEM NO.:HJJ-02

Application: Push pull force, destructive test of the flake or lump shape materials such as blocks of wood, glass, leather, paper ect.

Maximun Load: 500N

ITEM NO.:HJJ-03

Application:

Peel force testing of tape, PCB, adhesive tape and so on.

Maximun Load: 500N

ITEM NO.:HJJ-04

Application:Pulling force, collapsing force, Extension force test of cloth, paper, wool, fabric, leather, rubber and other materials.

Maximun Load: 500N

ITEM NO.:HJJ-05

Application:

Pressure, destructive test of sponge, foam, glass, stone and other materials.

Maximun Load: 500N

ITEM NO.:HJJ-06

Application:Rally, destructive power, plug power test of all kinds of cables, glass, leather, electrical components

Maximun Load: 500N

ITEM NO.:HJJ-07

Application:Tensile force test, destructive test of the flake or lump shape materials such as blocks of wood, glass, leather, paper ect.

Maximun Load: 5000N

ITEM NO.:HJJ-08

Application: tensile force, destructive power, plug power test. of the materials such as rubber, all kinds of cables, packaging tapes, electrical components and so on.

Maximun Load: 1000N

ITEM NO.:HJJ-09

Application: Push pull force, destructive test of the flake or lump shape materials such as blocks of wood, leather, paper ect.

Maximun Load: 500N

HJJ Series Clamps

ITEM NO.:HJJ-10

Application:Push pull force, destructive test of the flake or lump shape materials such as blocks of wood, leather, paper ect.
Maximun Load: 5000N

ITEM NO.:HJJ-11

Application: Tensile strength and destructive testingof steel wire,iron wire, fishing lines, nylon ropes and all kinds of cables and other materials of which the maximum diameter is 6mm.
Maximun Load: 5000N

ITEM NO.:HJJ-12

Application:Tensile strength testing of bolts, screws and other fasteners.
Maximun Load: 15000N

ITEM NO.:HJJ-13

Application: Tensile force,destructive power, Insertion and Extraction Force test of the material such as rubber, all kinds of cable, paper, various electrical components,plastic film,etc.
Maximun Load: 500N

ITEM NO.:HJJ-14

Application:Push pull force, destructive test of the flake or lump shape materials such as blocks of wood, leather, paper ect.
Maximun Load: 50KN

ITEM NO.:HJJ-15

Application:Button fastening strength detection and pull test of different buttons.
Maximun Load: 500N

ITEM NO.:HJJ-16

Application:Application:Button fastening strength detection and pull test of different buttons.

Maximun Load: 500N

ITEM NO.:HJJ-17

Application:Application:Button fastening strength detection and pull test of different buttons.

Maximun Load: 500N

ITEM NO.:HJJ-18

Application: Rubber soles, clothing buttons fixed detection and pull test of different buttons.

Maximun Load: 500N/1000N
